

12290 DIGITAL TIRE PRESSURE GAUGE WITH KEYRING

GAUGE OPERATION INSTRUCTIONS

1. Press "ON" button to activate the gauge.
2. The screen will flash and then show "0.0" with default unit (Default units is PSI).

18.8
psi bar kPa kg/cm²

0.0
psi

3. Press "ON" button for 3 seconds to switch to the next unit. Repeatedly press "ON" for 3 seconds until desired unit shows.

0.0
psi

0.00
bar

0
kPa

0.00
kg/cm²

4. Gauge is now ready for operation.

5. Push and hold nozzle onto tire valve. Make sure a good seal is made between the nozzle and the valve stem so that no hissing sound of escaping air is heard from the valve.
6. Hold gauge on valve stem tightly. The display will flash until the actual pressure reading is displayed and locked.

35.5
psi

7. Quickly remove gauge from valve stem and read pressure. You may continue to use the gauge even though the previous reading is still displayed by following the instructions above.
8. The pressure reading will show (stay) on the screen for about 10 seconds then turn off automatically.

FLASHLIGHT OPERATION

Press and hold the flashlight button to turn on the flashlight.

Release the flashlight button to turn it off.

REPLACING THE BATTERIES

To replace the batteries, simply unscrew the battery cover on the back of the unit and remove the old batteries and immediately recycle or dispose of used batteries according to local regulations and keep away from children. Do NOT dispose of batteries in household trash or incinerate.

WARNING

- **INGESTION HAZARD:** This product contains a button cell or coin battery.
- **DEATH** or serious injury can occur if ingested. • A swallowed button cell or coin battery can cause **Internal Chemical Burns** in as little as **2 hours**.
- **KEEP** new and used batteries **OUT OF REACH of CHILDREN** • Seek immediate medical attention if a battery is suspected to be swallowed or inserted inside any part of the body.

Even used batteries may cause severe injury or death.

Call a local poison control center for treatment information.

The battery type is CR2032, 3.0V/210mAh
Non-rechargeable batteries are not to be recharged.

Do not force discharge, recharge, disassemble, heat above 60°C (manufacturer's specified temperature rating) or incinerate.

Doing so may result in injury due to venting, leakage or explosion resulting in chemical burns.

Ensure the batteries are installed correctly according to polarity (+ and -).

Do not mix old and new batteries, different brands or types of batteries, such as alkaline, carbon-zinc, or rechargeable batteries.

Remove and immediately recycle or dispose of batteries from equipment not used for an extended period of time according to local regulations

Always completely secure the battery compartment. If the battery compartment does not close securely, stop using the product, remove the batteries, and keep them away from children.

FCC Warning Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment

does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Re-orient or re-locate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment to an outlet on a circuit different from one that the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
